

## FLOWSERVE PUMPS AND SEALS MERGE AND JOIN FORCES WITH FUREY FILTER AND PUMP

On January 1<sup>st</sup> 2010, Flowserve Corporation merged the Flow Solutions Division FSD (mechanical seals) and Flowserve Pump Division FPD into the Flow Solutions Group.

This integration provides a single sales and support organization designed to enhance our industry leadership position and ongoing efforts to exceed customer expectations by providing our worldwide markets with an unprecedented level of rotating equipment and related products, services, support and expertise.

As a result of this merger and change, we are very pleased to announce that Furey Filter and Pump Inc. has been selected as the Distributor for Flowserve's Flow Solutions Group's products including pumps and mechanical seals for their markets and accounts within the state of Wisconsin.
